

WATER SUPPLY UNIT

Experimental capabilities

- Tank capacity: 70 liters
- Centrifugal pump stainless steel body-230VAC 50Hz
- High pressure PVC Piping
- Pump flow rate: 7.2m³/h max
- Pump pressure: 2.3 bar max
- Drain Valve of the tank
- Float flowmeter 250- 2500L/h
- Flow rate control valve
- Electrical supply box with circuit breaker (on / off)

UTL050

Operating principle

The UTL 050 bench has been designed to supply hydraulic system with water

The unit comes complete with instrumentation, technical documentation as well as all the accessories required for proper operation.

The robust design of this equipment makes it perfectly suited for school use.

Its anodized aluminum structure on wheels makes it very robust as well as a great flexibility of integration into your premises.

The manufacture of this equipment meets the European machine directive

Services required

- Electricity : 230 VAC mono - 50 Hz - 4 A
- Water supply : 70 L
- Dimensions: (LxWxH mm): 800 x 800 x 880
- weight (Kg): 70

Documentation

- User's manual
- Technical documentation of the components
- Certificate of conformity CE

Note : if the equipment installation is operated by our staff, all supplies and exhaust connections required must stand at less than 2m from the machine
